

Hey Guys,

I am your Education Officer. I graduated this year with a degree in Biomedical Science.

My job is to represent you in issues including your academic, regardless of whether it be helping with an individual academic inquiry or student body as a whole in attempt to accomplish the most ideal result for you!

This academic representation is vital, so I support and collaborate with your fantastic Course Reps and Part-Time Officers to achieve real, positive change.

I firmly trust that students are at the core of all that I do. There are many difficulties in Higher Education right now and I need to ensure your voice is heard.

I anticipate stalling out into the part and handling the difficulties that lie ahead, together our Sabbatical group will work enthusiastically to give you the most ideal student experience.

If you have any issues or questions, please get in touch with me. I'm here to work for you!
